Supplement to *MODEL YACHTING*, November, 1930

By C. O. BROOK, COMMODORE, THE DEEPER HUDSON M.Y.C.

These Drawings are not made to Scale nor in any proportion, merely giving their shape.

A combined Selection of Fittings for Model Yachts, taken from Boats by "Bull" "Pidgeon" "Brown" "Hereshoff" "Reynolds" Tucker - Potter - Ringe - MacCumber - McGilvray and "Rick" with a Modified "Enterprize" (1930) freak Boom; These Sketches were made at Boston, Mass. by C.O. Brook, Commodore, The Deeper Hudson Model Yacht Club, during the 1930 "Eagle Cup" Races, and Show the Artist's selection of what he considered the best fittings from 22 "A" and "B" Class Boats, and arranged by him into a composite group to completely rig a model Yacht for racing from Skiff or Pond; The Most simple and efficient parts, from a Standpoint of Ease of Handling in a Blow and Rough water and Lessening of the necessity to use a large number of Tools Being the only ones used, without Sacrificing Beauty of Deck and Rig. The Boat Outlines are not intended for use, serving merely for a Base for the fittings.
